

This winter will be hard

But there is help for people in Manchester

Get protection from Flu and Covid

Help if you get ill

Support with money

Advice

Ways to keep warm

Flu and Covid

Winter is when many people catch Flu (Influenza) – and Covid is still about

Both of these viruses can make you very ill – getting them together can be very serious

Protect yourself and people around you by getting vaccinated against both

Covid

Covid jabs are free and safe.

If you have had Covid, you can catch it again.

If you been vaccinated, the protection it gives wears off.

Get a free booster jab if you are:

- Over 50
- In a high-risk group, such as people with a learning disability
- Pregnant
- Work in health or social care

If you have any questions phone our free Manchester Helpline and speak to us about booking a Covid vaccination even if you have not had one before – because it is never too late to come forward.

Free phone: 0800 840 3858

Monday to Friday, 9 am to 5pm. Translation service is available

Text: 07890 036 892

Flu

These people will be contacted for a free flu vaccination:

- Children aged 2 and 3
- Children at Primary and Secondary school
- People who have health issues that make them 'at risk'
- People over 50 years old
- Pregnant women
- Health and social care staff
- Living in a care home
- People who live with someone with a weak immune system

Your GP, local hospital, or school will contact you.

The flu jab does NOT contain any pork or animal products. Children are usually given a spray up the nose, this does have pork in it. They can have a jab instead.

How to stay well

- Wash your hands
- Wear a mask if it feels right to do so
- If you feel ill, stay at home

Get help with your health

If you need medical help there are lots of ways you can get help and advice

NHS 111

This is a 24-hour service that can help if you have an urgent medical problem and are not sure what to do.

They can give you medical advice, connect you to a nurse, emergency dentist, pharmacist or GP.

if you need to go to the hospital emergency department, they can give you a time.

Phone: 111

Website: 111.nhs.uk

Emergency 999

If someone is seriously ill or injured and their life is at risk

Phone: 999

Pharmacist or Chemist

They can offer advice and over-the-counter medicines for things like coughs, colds, sore throats and tummy aches.

If you cannot afford the medicine you need, ask if you can get it free under the Minor Ailment Scheme.

GP practices

You should be registered with a Doctor at a local GP surgery. They can treat you, or arrange for you to have tests or see a specialist in a hospital, or get care in your community.

GP Practices may also have nurses or other staff who see you.

Some GPs can give you advice over the phone or by video.

To make an appointment phone, call in, or go on the GP practice's website.

Mental health support

If you or someone you know is having mental health issues, contact the Greater Manchester Mental Health Crisis Helpline.

It is free to phone and is open all the time
